Art Unit: 1644

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancelled claims 1-2 and 5-30, in accord with MPEP 1215.04.

The following is an examiner's statement of reasons for allowance:

Claims 3-4 and there dependents are allowable over the prior art cited in the actions of 3/5/03 and 5/11/04. It is noted that Kazanori et al teach a cell separation device which would, at the most, include the V-region of only the L-chain or the V-region of only the L-chain (see claims 1 and 2 at page 4/38 of the translation). It is noted that the invention of instant claims 3 and 4, to the contrary, would require CDRs from the V-regions of both the H- and L-chains of an anti-CD4 antibody.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Okarma (6,143,508) teaches polystyrene fiber based cell separation devices and the advantages of fibers, compared to sheets, within the devices; see col. 19, line 65-col. 20, line 67.

Art Unit: 1644

The teachings of Okarma would encompass devices containing anti-CD4 monoclonal antibodies; see col. 18, lines 23-41. Neither this reference nor any of record would provide motivation to use single chain or chimeric antibodies, in lieu of monoclonal antibodies, in such devices.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David A. Saunders, PhD whose telephone number is 571-272-0849. The examiner can normally be reached on Mon.-Thu., 8:00 am-5:30 pm and alternate Fridays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Christina Chan can be reached on 571-272-0841.
